

Environmental Policy

As a multi-disciplinary design Practice, Ingleton Wood LLP recognises that there are environmental effects from both its operations and its design functions. The scope of this policy, which conforms to the requirements of BS EN ISO 14001:2004, is the use of our office and our project work in respect of all our services. Ingleton Wood LLP's environmental aims are:

- To, as far as is possible, prevent pollution.
- To reduce environmental damage, and seek continual improvement.
- To set and review objectives and targets for the reduction of environmental impact.
- To consider these opportunities both within the Practice's operations and as an integral part of work commissions.
- To comply with legal obligations including relevant environmental legislation, regulations and other relevant requirements.
- To promote sustainable design with clients wherever opportunities arise.
- To encourage all employees and contractors to avoid and prevent environmental damage and to act as good neighbours to those affected by building and construction activities.
- To provide and exhibit this Policy and such written instructions as are necessary to aid the implementation of this Policy. To publish the policy externally.
- To ensure that the Policy is properly discussed with and understood by all employees.
- To ensure implementation of this Policy by appointing representatives from each office who will monitor objectives and targets and ensure the policy is implemented by each office.
- To review this policy at 12 monthly intervals.
